PRELIMINARY AMENDMENT

Sir:

Prior to calculation of the filing fee and examination, please
amend the above-identified application as follows:

IN THE CLAIMS

Please amend claims 4 and 6 as follows:

4. (Amended) A method as claimed in claim 2, characterised in
that the equalisation in the second operation is to counter
distortions introduced by transmitting and receiving equipments.

1 6. (Amended) A method as claimed in claim 4, characterised by
2 training an equalising stage used in the second operation using a
3 second training sequence which counters the non-linear
4 characteristics present in the transmitting and receiving
5 equipment.

REMARKS

The foregoing amendment to claims 4 and 6 were made solely to avoid filing the claims in the multiple dependent form so as to avoid the additional filing fee.

The claims were not amended in order to address issues of patentability and Applicant respectfully reserves all rights under the Doctrine of Equivalents. Applicant furthermore reserves the right to reintroduce subject matter deleted herein at a later time during the prosecution of this application or continuing applications.

Respectfully submitted,
